Dehumidifier

Technical Specifications

Model	DA-120L	DA-150L
Dehumidify capacity	120L/Day	150L/Day
Voltage	220V/50HZ	220V /50HZ
Input current	7.8A	8.1A
Power supply	1.45KW	1.7KW
Circulating air	1000m^3/h	1200m^3/h
Applied area	120-130 m2 (Height 2.6m)	150-180m2 (Height 2.6m)
Control way	Auto, Digital	
Drainage	Drain directly with hose	
Noise	≤ 60dB(A)	
Net weight	60 KG	720KG
Machine size	500x450x960mm	640x550x1100mm
Material (Body and Tank)	High quality Stainless Steel	
Compressor Origin	Thailand	
Fan Origin	China	
Copper origin	South Korea	

Histology Slide Warmer / Tissue Slide Dryer / Microscope Slide Oven with Heating

Feature

- This instrument having easy control panel and big surface capacity that has improved its reliability and precision, and it will be reliable for your lab.
- New design, heated evenly, Price is cheap and Quality is reliable.
- 4 layers and QTY for slide: 40pcs.
- Control panel is easy operation.

Specification

- Temperature range: Ambient - 100℃
- Temperature tolerance: + 1℃
- QTY for slide: 40pcs
- QTY for layers: 4 layers
- Working voltage: AC220V 50HZ and power 800Watt
- Overall dimension: W34 x L34 x H14 CM
- Weight: 10 Kg

Model: SD-40
